

Husqvarna Soff-Cut 2000.

Applications.

- Ultra-early entry concrete cutting system to reduce random cracking.
- Designed for heavy-duty usage on highways, runways and paving applications.
- Three blade widths can be used, allowing different joint widths and crack control simultaneously.

Benefits.

- Self-propelled gas saw with hydrostatic transmission.
- Electronic remote key start and choke.
- Patented low-noise and low-dust blade block enclosure.
- Mechanical remote retractable guide.
- Roll cage frame.
- Mechanical depth control.
- Cyclonic air filter to increase engine longevity.
- Patented dry-cut diamond blade, anti-ravel skid plate and safety arbor.

Diamond blades.
